Price 58.00 (5 pack)

# ECO-FRIENDLY WITH YOU IN MIND

Our Salon Furniture Cleaners were created with two goals in mind: care for the environment and the safety of our customers.

As the world goes green and people do their part to protect the earth, salons are also focusing on this new eco-friendly trend. Hair salons, spas, and barbershops have begun using energy-efficient equipment and selling natural, earth-friendly products that are better for the environment, themselves, and their clients. So, with that in mind, we created our Salon Cleaners to complement their commitment to change.

# HSR N°1

## HAIR SPRAY REMOVER

Removes product build-up,  
i.e. hairspray, gel, and shampoo residue.

## THE FIRST STEP IN SALON FURNITURE SAFETY

Per EPA guidelines the first step in effective sanitization is to clean with soap or detergent to physically remove any dirt, organic matter, and most germs before disinfection.

Our Salon Furniture Cleaners were created to effectively remove any salon specific product build up (hairspray, gel, and shampoo residue) and ensure that germs are not hidden from the disinfectant when applied.

Because your salon furniture is a valuable investment and also an important symbol of the health of your business, our Salon Furniture Cleaners are designed to be a powerful nontoxic alternative to harsh chemical based cleaners that ruin chair materials by drying, cracking, and delamination.
